Dear Mr. Laskowitz,

Building a new home can be an exciting time. We want to thank Community Homes for making our dreams come true. Working with you, Doug, was truly the right decision. You kept your promises and more!

Community Homes is a company that cares about their product as much as their customer. During the entire building process, you always kept us up to date on the progress. Your frequent phone calls and on line photos were greatly appreciated. Because our home was out of the county, the contact always brought us peace of mind.

Please be assured we will recommend you to others. We found your professionalism and quality of work to be outstanding. The end product speaks for itself!

Thank you again for making this such an enjoyable experience for me and my family.

Sincerely,

OJ Buigas
